ZFD Fire Marshal receives Fire Inspector of the Year award

Zionsville Fire Department Fire Marshal Joshua Frost received the 2018 Fire Inspector of the Year award given by the Fire Inspectors Association of Indiana (FIAI). This award is presented to a member of the FIAI that has improved the safety of their community by consistently conducting code enforcement, plan review and public education on the needs for code enforcement.

During 2017, the Zionsville Fire Department Fire Prevention Division oversaw 211 company-level inspections and performed inspections of nearly 97% of the occupancies in our service area with nearly 100% mitigation of any deficiencies noted within 60 days. Josh is active in the State of Indiana code adoption process and provides input regarding legislation and other life safety matters.

The department regularly receives compliments from developers and citizens regarding the assistance that Josh provides: "He has been extremely helpful, knowledgeable"; "His information was invaluable." These are just a few of the many compliments the department has received on his behalf.

Congratulations Fire Marshal Frost!
